烘烤硬化高强度冷连轧钢板及钢带 Continuous cold rolled high-strength bake hardening steel plates and strips	Q/ASB 89.1	140BH (CR140BH)	0.6-2.0	900-1580	深冲压用，冲压性能优良，经涂漆烘烤后，强度有一定提高，主要用于汽车面板深冲用。 With excellent drawing capability, they are used for deep drawing purposes and get enhanced in strength to some extent after paint coating and baking, used for automobile stamping, used for automobile stamping.
		180BH (CR180BH)			冲压用，经涂漆烘烤后，强度有一定提高，主要用于汽车面板冲压用。
		180H1			They are used for drawing purposes and get enhanced in strength to some extent after paint coating and baking, used for automobile stamping.
		180BH2			一般或结构用，具有一定的延展性，适用于简单成形，经涂漆烘烤后，强度有一定提高，主要用于汽车结构件。General or structure, with a certain amount of ductility, suitable for simple shape, the paint baking, strength increased, mainly for automotive structural parts.
