

产品类别 Product Classification	标准号 Standard No.	牌号 Steel Grades	厚度 Thickness	宽度 Width	用途及特点 Application and Feature
低碳含磷高强钢 High-strength steel with low carbon and phosphur	GB/T 2518 ATQ 314	H180YD+Z H220YD+Z H260YD+Z	0.6-1.6	800-1250	汽车冲压用钢, 具有良好的冲压性能的同时具有高的强度, 对部件减薄有利, 适用于对抗凹性能有较高要求的零部件 Steel for automobile stamping , has good performance and the advantages of high strength, can make parts lighter, applied to fight against concave
